

Florida Statutes: 553.793 streamlined low-voltage alarm system installation permitting.

Low-voltage alarm system project means a project related to the installation, maintenance, inspection, replacement, or service of a new or existing alarm system that is hardwired and operating at low voltage, as defined in the National Electrical Code Standard 70, Current Edition, and ancillary components or equipment attached to such a system, including, but not limited to, home-automation equipment, thermostats, and video cameras.

Wireless alarm system means a burglar alarm system or smoke detector that is not hardwired.

This section applies to all low-voltage alarm system projects. However, a permit is not required to install, maintain, inspect, replace, or service a wireless alarm system, including any ancillary components or equipment attached to the system.

The contractor shall purchase permit labels from the Building Department to be used for the installation or replacement of a new or existing alarm system at a cost of \$45 per label per project per unit.

A label is valid for 1 year after the date of purchase.

A contractor may purchase labels in bulk for one or more unspecified current or future projects.

A contractor shall post an unused uniform basic permit label in a conspicuous place on the premises of the low-voltage alarm system project site before commencing work on the project.

The contractor must submit a Uniform Notice of a Low-Voltage Alarm System Project to the Building Department within 14 days after completing the project.

The Building Department may take disciplinary action against a contractor who fails to timely submit a Uniform Notice of a Low-Voltage Alarm System Project.

UNIFORM NOTICE OF A LOW-VOLTAGE ALARM SYSTEM PROJECT

A CONTRACTOR MUST SUBMIT THIS FORM TO THE LOCAL ENFORCEMENT AGENCY WITHIN 14 DAYS AFTER COMPLETING THE PROJECT. A LOCAL ENFORCEMENT AGENCY MAY TAKE DISCIPLINARY ACTION AGAINST A CONTRACTOR WHO FAILS TO TIMELY SUBMIT A UNIFORM NOTICE OF A LOW-VOLTAGE ALARM SYSTEM PROJECT.
